Demands of Unions for Usual Hours

## 40,000 LAKE SEAMEN ARE OUT TODAY

Some Trouble Occurs in the Mining Districts but  
Absence of Rioting is Noticeable---Trouble  
Reported at All European Capitals

(Scripps-McRae Dispatch.)

• SAN FRANCISCO, May 1.—Labor troubles threaten here. The unions are trying to uphold the scale and an eight hour day. The employers demand, on account of the extreme situation, a lower scale and longer day.

## Fierce Rioting.

PARIS, May 1.—There were numerous skirmishes between the laboring men and the police early this morning. Six hundred strikers fired on twenty bicycle police in Rue Oberkampf. The police scattered the rioters. There is almost continuous rioting in Belleville market, most of the trouble being caused by the printers. Over a hundred arrests were made.

Eighty thousand joined the strike this morning. The police report 375 arrests made up to noon.

## Hundreds of Arrests.

A squadron of Cuirassiers with an ambulance have occupied a part of Place de l'Etoile. Cavalry is patrolling the vicinity of the Ministries and Quay d'Orsay. The police are guarding the American embassy. Hundreds of disturbers have been taken in at Place de l'Amirique. The prisoners were taken immediately before a magistrate, tried and committed to jail. Wholesale arrests occurred at Fromentin. A wealthy anarchist was taken.

## Explosion Alarms.

An explosion from an unknown cause in Champ Elysee alarmed the citizens early today.

Barricades have been erected. There are many riots and a number of soldiers and many strikers were hurt in charges of cavalry.

## Chicago Strike.

CHICAGO, May 1.—Montgomery Ward is facing another strike. Teamsters were refused permission to wear union buttons and are quitting. The police are guarding and the firm is advertising for non-union men.

## Trouble Everywhere.

LONDON, May 1.—A great labor demonstration was made in Hyde park today. There were demonstrations in all European capitals, but

they are generally quiet.

## 40,000 Out.

CHICAGO, May 1.—It is estimated 40,000 workmen connected with the freight transport service on the lakes are on a strike today.

## No Rioting.

MOUNT CARMEL, Pa., May 1.—This city is free from rioting this morning and troops are awaiting orders from the sheriff who traveled hurriedly through four counties in the district and returned. He said he would not attack. More constabulary is expected today.

The mine workers swore out twenty-four warrants against Lieutenant Smith's constabulary this morning charging rioting. The sheriff telephoned Smith ordering him to keep his men out of the town as it is "necessary for me to avoid excitement."

OTTENS BOUND OVER FOR  
PASSING COUNTERFEITS  
IN \$750 BAIL

B. Ottens, the young man arrested a few weeks ago on the charge of passing counterfeit money on a French island saloonkeeper, was formally arraigned in circuit court this afternoon.

He pleaded not guilty and was remanded to jail in default of \$750 bail.

## LAST LOG DRIVE ON BLACK RIVER

The last log drive that will ever come down Black river has reached New Amsterdam and is being held up pending a rise in the river which will enable the logs to be brailed and floated down to the mill on the north side. None of the logs which are coming down in this drive were cut this winter. All were picked up on the banks and in the sloughs during the late winter and early spring and turned loose in the main channel to be float-

ed down to the mill. To augment this supply the Trow company this morning started a crew of men out with a steam contrivance on a barge designed to lift sunken logs off the river bottom and roll other logs into the river from off the banks. The company plans to clean up all the logs available between Black River Falls and the city and expects to get enough to keep the mill busy nearly the entire season.

TRIBUNE'S BID  
IS LOWEST

Bids were opened in the city clerk's office this morning for doing the city printing for the ensuing year.

Only two papers put in bids, the Leader-Press and Tribune. The Leader-Press proposes to print the legal notices for the city for 50 cents a folio for the first insertion and 25 cents for each subsequent insertion, and to print the council proceedings for 60 cents a folio and furnish 500 pamphlets at the city hall.

The Tribune's bid was 29 cents a folio for all the printing required under the contract.

The matter will be brought up and passed upon by the council at its next meeting.

MORE AMERICANS  
WIN AT ATHENS

(Scripps-McRae Dispatch.)  
ATHENS, May 1.—Leavitt of Williams college won the hundred and ten metres hurdle race.

Pilgrim won the six hundred metres running race.

Lightbody won the fifteen hundred metres.

H. W. Kerrigan of Portland, Ore., who represented America in the running high jump, today tied for third place with a Greek.

An American won the standing high jump and two Americans tied with Belgians for second.

REVISE CONSTITUTION  
AND CHANGE  
NAME

It is probable that action will be taken at the meeting of the Businessmen's association tonight looking to the complete revision of the constitution and bylaws.

Another important matter scheduled for tonight is the changing of the name back to the Board of Trade in accordance with the suggestion made by the Tribune shortly after the Progressive association and board of trade were merged. Nearly all confess that the name Businessmen's association is too unwieldy.

The meeting will be held at the city hall and there will undoubtedly be a large attendance.

Miss Mary Weigel was surprised at her home, Tenth and Johnson, last evening by a tin shower. Those present were Misses Lydia Nagel, Mamie McGuire, Grace McGuire, Lizzie Kasier, Hattie Doering, Max Hauser, Mrs. L. A. Weigel, Lily Weigel, Anna Jaeger and Margaret Zschoche.

HOGAN WITH THE  
POLICY-HOLDERS

Part of Organization of  
State to Protect  
Insured

Hon. J. J. Hogan of La Crosse took an active part in a meeting held in Milwaukee yesterday, when preliminary steps were taken for the formation of an organization of the Wisconsin policyholders of Mutual Life Insurance company of Milwaukee.

The object of the meeting was to create an organization which shall work as a unit in protecting the rights of the policyholders in any emergency which may arise and to place the policyholders in a position where they may be of force in the control of the company affairs.

The Wisconsin association expects to work in conjunction with the associations of other states it being the belief of the promoters of the movement that in this way the organization will prove most effective.

John M. Whitehead of Janesville was chosen chairman of the meeting and James H. Turner of Milwaukee was selected for secretary. The most important matter transacted at the meeting was the adoption of a resolution for the incorporation of the association as a society, and Messrs. Whitehead and Turner were appointed a committee to draw the articles of incorporation for the society.

Judge James G. Jenkins of Milwaukee who was appointed by the Mutual Life trustees as one of the members of the special investigating committee to look into the affairs of the society after the insurance scandals in the East had assumed such shape that an investigation was deemed necessary, was present at the meeting, but it is understood he made no statement as to the work that committee had accomplished.

The meeting was held in the club room of the Plankinton house and among the Mutual Life policyholders present at the meeting were Frederick Vogel, Emil Kiewert, J. G. Jenkins, James H. Turner and Ellis B. Usher of Milwaukee, J. M. Whitehead of Janesville, J. J. Hogan of La Crosse and H. O. Sprecker of Trempealeau county.

There are 16,000 policyholders of the Mutual Life Insurance company in this state and efforts will be made to get them all to join the proposed organization.

BUILD FENCE TO  
KEEP PRISONERS

With a second escape from the county jail in a period of two months steps will be taken at once by the building committee of the county board looking to the construction of a fence in the rear of the jail lot to keep prisoners within bounds while on their way to and from the stone shed.

The building committee has already taken the measurements for the needed barrier and it will be constructed as soon as carpenters can be secured to do the work.

## WEATHER &amp; WATER

• Showers and warmer tonight; tonight; Wednesday generally fair.  
• Coolest 48; warmest 66; wind 12 miles per hour. Rainfall 0.50.  
• The fall of the river will continue.  
• Stage of water 9.2, showing a fall of 0.2.

ASST. SECY. OF  
Y. M. C. A.

Oliver J. Ash, formerly connected with the Spicer & Buschman printing company, was last evening appointed assistant secretary of the Y. M. C. A. at the annual meeting.

Cameron Baldwin, Paul T. Schultz, Dr. J. A. L. Bradfield and John F. Quay were elected directors.

The meeting was ended with a social time, including selections from the Y. M. C. A. quartette, Prof. Kerr and the Y. M. C. A. mandolin club. About seventy-five were present.

PERSONAL TAY IS  
NOW BEING MADE UP

City assessors today commenced taking the personal tax roll and will be busily engaged until the 20th, when the work is supposed to be completed.

Assessors have no difficulty in hunting out who owns real estate. They set down their estimate of the value of each piece of realty in their ward and enter it in city ledgers without regard to the owners. It is the owners' business to call and pay their taxes, and if they do not comply, the property will be sold.

Not so with personality. If an assessor wants to be excessively industrious, he can ask every man, woman and child in a ward what amount of personal holding they possess, and he could hunt until he became gray without learning about it all. In general, assessors list the realty as they go along the street, and then they call at each house and inquire what furniture the occupant possess. From acquaintance in the ward and inquiry at houses they learn also what other personal property is possessed aside from furniture.

(Scripps-McRae Dispatch.)  
WASHINGTON, May 1.—Taft wired Phelan, chairman of the finance committee at San Francisco, this morning, saying:  
"There is left available of the government appropriation not over \$700,000, which may be expended only for rations, quartermasters and medical supplies. This can only be expended through the lawful agents of the war department, bonded officers of substance, quartermasters, medical bureaus and at my direction. This amount was provided by congress and I have no authority to turn the funds over to you, nor to allow them to be expended for any purposes except as specified in law."

SAN FRANCISCO, May 1.—The electric lights were burning on the streets last night and will be in homes soon. There remains only fifteen days' supplies. Urgent requests for more have been sent out.

WASHINGTON, May 1.—A bill was introduced in the senate for \$600,000 to repair public buildings in California.

Tillman demands an investigation of the Washington police, particularly in connection with the Barnes-Morris incident.

CIRCUIT COURT IN  
LIGHT TERM OPENS

What promises to be a light term of circuit court was opened this morning at 9:30 when the jurors responded to their names a day calendar was fixed up for tomorrow, some other little matters attended to and court adjourned for the day.

After a number of cases had been adjourned or settled there remained but 14 issues of fact for the jury, six of which were put on a day calendar and are due to be called tomorrow. Fourteen criminal cases and a few issues of fact for the court will drag out the term to about three weeks.

Sheriff Haugen has appointed E. E. Blashek and Gid Lang as court deputies for this term.

PLANNED  
TO SLAY  
OFFICER

Conners Had Rock  
in Handkerchief

## CHASE THROUGH A SWAMP

Tuckered Him Out, However  
and Gun Forced Argument for Scott

With a big rock wrapped up in a handkerchief Edward Conners, who escaped from the county jail yesterday noon, sought to prevent his recapture when brought to bay by Undersheriff W. J. Scott in a swamp three miles this side of Stoddard late yesterday afternoon.

That the escaped prisoner did not carry out his criminal purpose to fellofficer and then get away is due to the diplomacy of the pursuing officer and a big gun which he wielded with good effect. Otherwise the undersheriff might now be lying cold in death with a jagged hole in his head.

Conners' recapture was effected after a chase of seven miles by team, a run of three quarters of a mile along a railroad track and a quarter of a mile through a swamp where the prisoner and officer sunk knee deep in mire.

It was after 4 o'clock in the afternoon when the undersheriff accompanied by a "trusty" from the jail, got onto Conners' trail south of the city. Men employed on a bridge crew on the Southeastern half way to Stoddard reported they had seen a man answering Conners' description walking along the track southward. The ponies were whipped up and a mile beyond the undersheriff saw his man just approaching a bend in the track. Driving up as near as possible Mr. Scott left the team with the "trusty" and slid down the embankment onto the track. Conners saw him coming and turning ran back the way he had come. The prisoner had a start of a hundred yards but the undersheriff demonstrated that he still retained some of the sprinting proclivities of his younger days, and steadily gained on his man. Down the track away a farmers' boy was plowing near the right of way. Pulling his gun the officer fired one shot which had the effect of bringing the lad to the track and heading off Conners, who took to the swamp.

The race in the swamp was attended with nerve racking handicaps, both men sinking up to their knees in the yellow mire. The pursued had not gone far before he brought up on the bank of a running stream too deep to ford and too swift to swim, and unable to turn back he sank down behind a log utterly fagged out. The officer stopped 20 feet away and waiting until he had partially regained his breath commanded "Come out of that."

"You come and get me," retorted the prisoner.  
"I'm tired of monkeying with you; I guess you'll come along now and that right quick," said the undersheriff fingering his gun in a menacing fashion.

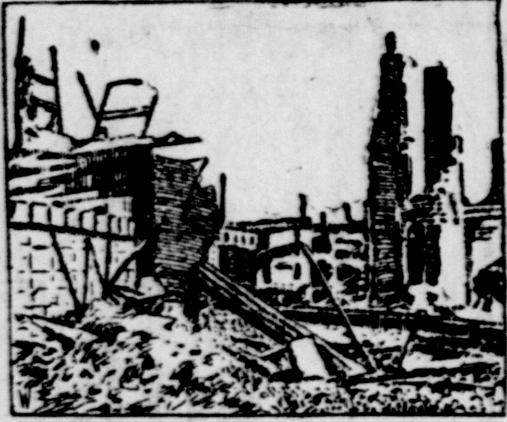

Seeing that the game was up Conners sauntered up with a grin on his face and attempted to walk up close

## MAYOR SCHMITZ SAYS GENEROUS MUST NOT GROW WEARY OF AIDING

San Francisco, May 1. — A feeling akin to consternation was created at the meeting of the general municipal committee yesterday when Mayor Schmitz stated that the city faced a shortage in the food supply. It had been the popular belief, and that of many officials also, that San Francisco, through the generous aid of the nation, had been placed in a position above want for a long time to come, and the

ALL THAT IS LEFT OF GRACE CHURCH, mayor's declaration came in the nature of a painful surprise. Mayor Schmitz told the general committee that from information in his possession it appeared that 700 car loads of food and supplies of various descriptions had been distributed since the morning of the earthquake, April 18, and the Southern Pacific, the Santa Fe and other transportation lines had information of only 108 cars on the way.

**Food for Fifteen Days in Sight.**  
General Greely does not take such a pessimistic view. Basing his calculations upon reports received within the past twenty-four hours General Greely stated that the entire available food supply, including shipments on hand and those en route, would be sufficient for the present population during a period of fifteen days. This reckoning is made upon the rate at which supplies have been consumed since the fire. Under the army ration system that will hereafter prevail General Greely stated his belief that the same amount of food would last twenty-one days.

**Distribution of Food at Oakland.**  
It was decided at a conference held by Governor Pardee, Representative Kahn, General Greely and Mayor Mott that the distribution of relief supplies in Oakland should be also placed under military direction, similar to that in vogue in San Francisco. Oakland being the nearest large place of refuge from this city has been obliged to attend to the task of feeding and housing thousands of unfortunate people, and it is stated that the same misuse of food by unscrupulous and mercenary persons has been unearthed there.

**They Wait the New Building Laws.**  
Signs of renewal of industrial activity are apparent in many parts of the burned district, and the work of clearing away debris preparatory to rebuilding is in progress in a score of places. It was said that plans for over thirty large buildings have been drawn and will be submitted to the authorities after the new building laws are promulgated. The mayor notified the board of supervisors that he would appoint a committee consisting of engineers, architects, builders and lawyers to prepare plans for laying out streets and boulevards and reconstructing San Francisco.

**PHYSICIANS ARE DESTITUTE**

## BULLETS AND STONES COST SEVERAL MINERS THEIR LIVES IN RIOTS

Mount Carmel, Pa., May 1. — The first serious collision in the anthracite coal regions since mining was suspended on April 1 occurred here between a mob of idle mine workers and a platoon of the new state constabulary force, and resulted in the injuring of probably twenty men, three of whom will likely die. The disturbance was caused by an attack on a detail of the state police by several hundred strikers, who became incensed at the presence of the constables. They threw stones at the policemen, and otherwise endangered their lives to such an extent that they were forced to fire on the crowd, which had swelled into thousands.

**Names of the Seriously Hurt.**  
The riot caused the greatest excitement in the many mining villages of the southern coal fields when it became known that mine workers had been shot down. While it is believed that a score of persons was injured during the day only ten are accounted for. The three who it is thought will die are: Louis Wilson, shot through the body; R. Miserevich, in the stomach; Stanislaus Watoski, in the groin. Wilson was shot while standing in front of his home, a block from the scene of the conflict. R. H. Gibson,

immediately plunged into relief work and had no time for days afterwards to think of anything else. It is estimated that 500 physicians have been left absolutely destitute. Dentists, too, suffered severely. Measures are being taken for their relief.

Of San Francisco's seventy-six school buildings twenty-eight were wiped out or made useless. The department of education has declared the school year that opened last fall at an end, and has announced an indefinite vacation.

Street car lines are being extended in all directions, and the United Railways has promised to give the people within a short time a better system of transit than existed before the fire.

Shipping is rapidly returning to normal conditions.

## COBBLER TORTURED BECAUSE HE LIKED TO SLAY WOMEN

Mogador, Morocco, May 1.—Details of the murders of thirty-six women were given in a confession by Moko Mesfowl, the cobbler who has been sentenced to be crucified on Thursday. The bodies of the victims were found buried under his shop and in the garden. "I killed the women because I liked to do it," said Mesfowl. "I took great delight in seeing them suffer. I would bind them and then torture them until they became insensible. Then I would revive them and torture them more. Sometimes I spent days in taking a life."

"I did all the work without interruption, until the last time, when I was caught. Hardly anybody could have found the secret chamber in the cellar. Isn't it clever?" and he led the authorities to his torture room. Fendish instruments of all kinds were found. There were piners used to tear nails from the quivering victims and sharp pointed needles and irons for the purpose of burning and searing. Strands of wire were found used for binding and as a minor form of torture. Weights and pulleys were attached to the walls, evidently an improvised form of rack. Spiked clubs, some with needle-like protuberances, were scattered about the place.

## Auto Stops a Bank Run

Cleveland, May 1.—The sending of \$200,000 to the Dollar Savings bank, of Painesville, by the First National bank, of this city, in an automobile, stopped a run on the former institution. The Dollar Savings bank is declared by bankers to be perfectly solvent.

The occasion for the run was the beginning of a suit in the United States court last Saturday by William P. Engel, of Deliance, O., asking for an accounting with the Dollar bank, and with a financial institution in this city of stocks held for Engel by the late Leland C. Prior at the time of his suicide. In his petition Engel made the charge that the two banks in question had made loans in excess of the limit set by law.

Shopping-thrift is a virtue of gradual growth. As it becomes more and more a habit, the twin-habit of adreading keeps pace with it.

## LAKE TRAFFIC IS TIED UP

Detroit, May 1.—"Upon what I consider absolutely reliable authority," said President William Livingstone, of the Lake Carriers' association, last night, "I have learned that President D. J. Keefe, of the International Longshoremen's Marine and Transport Workers' union, has ordered the members of his union to strike at midnight tonight. The locals ordered out include the ore and package freight handlers, the grain scoopers, the firemen and oilers, the tugmen, and a problematic number of mates. We have not been looking for trouble, but now that it is forced upon us the Longshoremen's union will know that they have been in a fight."

Cleveland, May 1.—"The pilots, or mates, union will never be recognized," said F. R. Gilchrist, treasurer of the Gilchrist Transportation company, which operates one of the largest fleets on the great lakes. "It is the old fight of two years ago over again. Then there was a strike to have the captains recognized as union men. That was settled, and now come the mates, through the longshoremen, and ask to have the mates' union recognized. A captain and mate stand in the same relation to the vessel owners as do the superintendent of a factory to the manufacturer. The vessel owners think that they are entitled to at least two representatives on each boat who are not affiliated with the union. A mate stands next to the captain, and it is necessary, the vessel owners hold, that he should not be connected with the union."

## N. Y. GRAND JURY IGNORES INSURANCE

New York, May 1.—The April grand jury has submitted a presentment to Recorder Goff covering its action upon the insurance situation. Prominent figures in the political and financial world are mentioned in the jury's discussion of insurance problems, including Cornelius N. Bliss, Postmaster General Cortelyou and George W. Perkins. Upon the advice of District Attorney Jerome the jury did not investigate insurance matters, Jerome saying he wanted a court decision on the subject before he presented it to the grand jury.

Appended to the presentment is an extract from the minutes of the grand jury giving a colloquy between members of the jury and District Attorney Jerome after Jerome had been called to present to it all evidence of any criminality pertaining to any insurance company. Jerome is quoted as having said that if the contentions of some held true this grand jury would be obliged to indict the leading officers of every prominent financial corporation in the city and state of New York. He said that he had taken advice on this subject from Governors Folk, of Missouri, and Deneen, of Illinois.

## CZAR TO CARRY OUT HIS ARMY POLICY

St. Petersburg, May 1.—Foreseeing difficulty in inducing parliament to grant a credit for moving troops to suppress disorders in the interior, the council of the empire, upon the request of the minister of war, has placed \$3,500,000 at the latter's disposal for this purpose. The policy of the government is to move the troops frequently in order to prevent them from becoming tainted by association with revolutionists as a result of residing too long in one locality.

The credit is assigned particularly for the movement of battalions of infantry, thirty-two squadrons of cavalry and thirty-two batteries of artillery.

## THE LA CROSSE TRIBUNE

Published Every Afternoon Except Sunday, at 121 Main St., La Crosse, Wis.

A NEWSPAPER FOR THE PEOPLE

By The Tribune Publishing Company

W. V. KIDDER ..... Managing Editor

Daily by Carrier ..... \$5.00 per year  
Daily by Mail ..... \$4.00 per year

Entered as second-class matter June 22, 1904, at the Post Office at La Crosse, Wis., under the Act of Congress of March 3, 1879.

Special Representatives: Payne & Young, Chicago, 948 Marquette Bldg.; New York City, 105 Potter Bldg.

### AN APPRECIATION, AND AN APOLOGY.

It was with some hesitancy that we published yesterday a personal letter from Col. Charles K. Lush, formerly publisher of The Chronicle. Perhaps Col. Lush will think his "lieutenants" were a little discourteous in thus taking advantage of his cheering word. However, we felt that there are so many people in La Crosse who would enjoy hearing from him, and we so well appreciated the advantage to us of so emphatic an endorsement from the hero of a former newspaper fight here, that we could not resist.

The "lieutenants" are proud of their tuition under the veteran newspaper man who wrote that letter, and more than once in times of discouragement they have wished his stinging pen might be here doing service of the sword than which it is mightier. With generous indulgence Col. Lush commends the present editorial of The Tribune as in the same class with his own, and well we wish it were. La Crosse has never enjoyed another writer of the originality, brilliancy and force of Mr. Lush.

We recall today with a delight that is mellowed by the flight of time how, between fishing trips and the most aggressive political campaign ever won by a La Crosse newspaper, we were the "lieutenants" of Colonel Lush while he was assaulting the first "light trust" ever formed in La Crosse so vigorously that Mr. Cargill said it, "Cost him \$250,000.00;" putting in the first wedge for the erection of a great hotel in La Crosse, organizing the Progressive Association, and doing the innumerable things that a wise journalist in whom the public believed could do. Those were strenuous, happy days, and it is good to know that Charley Lush thinks we will win our fight as he won his. His faith in the intelligence and fairness of the people of La Crosse reinforces our own trust in them.

Incidentally, the friends of Col. Lush know today that they were right in their estimate of him; they know that he suggested and made possible the first independent lighting company in La Crosse, and that he declined to even hold stock in it lest it be thought that he was actuated by a hope of financial gain when he urged its formation. How different the story of his dealings from that of the man who cornered and "leased" the independent plant, receiving at the same time a "gift" of "common stock" in the new "light trust" resulting from the transaction! We believe that hosts of the good and fair people of La Crosse join us in wishing to the gifted writer who has pleased to term himself our "doddering old school teacher," the blessings that life holds in store for those who live for material accomplishment, and whose Mecca is not a promised land of dollars.

### OUR SPLENDID PATRONAGE.

Saturday evening The Tribune carried 864 inches of local display advertising, while the Leader-Press carried 450 inches, The Tribune beating its evening competitor by 414 inches, almost two for one. Saturday morning The Chronicle carried 136 inches, or about one-sixth as much as The Tribune carried. The Tribune carried on Saturday 278 inches more than The Chronicle and Leader-Press combined.

During the four weeks since April 1st The Tribune has carried local display advertising to the total extent of 11,510 inches; The Leader 7,535 inches and The Chronicle 6,016 inches, The Tribune leading the Leader-Press by 3,975 inches and The Chronicle by 5,494 inches. In other words the Tribune lacks only 2,041 inches of having carried as much local display advertising as both The Chronicle and Leader-Press combined during the first four weeks in April.

### A LA CROSSE BOY MAKING GOOD.

La Crosse people like to hear of La Crosse people. When one has dwelt in La Crosse for a time, and then taken up his abode in distant lands, the word that comes back telling how the departed one fares is always received with interest. No matter how far he has strayed or how long his absence, the man from the Gateway City always retains his membership in Clan La Crosse.

One of the young men who left here a few years ago and who will be well remembered is Charles H. Hebbard. He located in Spokane, Washington, in the fall of 1898. Mr. Hebbard will hardly resent mention of the hard struggle he was forced to encounter when establishing himself in the western city. It was not plain sailing, and every bit of the intelligence and gumption of the man whom Judge Fruit said in a letter of introduction, "He is one of the most discriminating young lawyers who have come under my notice," was needed in those strenuous days.

But Mr. Hebbard made good, and today is interested in one of the greatest wholesale furniture houses west of Chicago. He was one of the commission recently sent to St. Paul by the interior towns of the west

seeking a re-arrangement of the discriminating terminal freight rates granted the coast cities.

Attention is called to Mr. Hebbard at this time by the fact that, at a mass meeting of the people of Spokane, he was elected chairman of the San Francisco relief committee, which raised \$25,000 for the sufferers. His work was mentioned in the leading editorial of The Spokesman's Review, in the following terms:

"That is an excellent suggestion made by Chairman Charles Hebbard of the citizens' relief committee—that Spokane churchgoers on their way to service this morning leave at the Heath building, Riverside and Monroe, or with a large van to be stationed at Riverside and Howard, bundles which may be conveniently carried of clothing, bedding and shoes. As Mr. Hebbard well suggests, every well to do family has such articles which can be donated with little or no sacrifice, but which will come as a God-send to the San Francisco sufferers.

"The Spokesman-Review imagines that every citizen who responds to this timely appeal will attend church with that pleasurable reflection which accompanies the doing of a thoughtful and generous deed, however inconsiderable that deed may seem."

It must appear comical to the friends and readers of The Tribune to see acrobatic Mr. Gelatt trying to imitate the "big heads" of this paper, which he so long derided as yellow and sensational. This shows pretty well what The Interests think of The Tribune.

The Businessmen's association will take a wise step to resume the old name, Board of Trade, tonight.

It's your move.

If anyone thinks straw hats are in season let him dare appear.

The weather man is getting back at the scoffers.

### "Plan-ta-ti-o."

(To Tune of Navajo.)

There was a place way down in Mexico,

Where it was often said

Sugar-cane and rubber trees would surely grow—

There would be money made;

Then came the company, and the small fry,

Rushing in with their cash—

Some sold their old homes so they could buy

What they would now call trash.

Oh, but it was funny,

How they gave up their money—

## THE STATE PRESS

### Beats La Crescent Claimant.

"Old Boss Keyes" is not, after all, the oldest postmaster in the United States in point of service, continuous or intermittent. The honor is claimed, and substantiated, for George H. Chamberlain of Rock Falls, Minn., who has been postmaster of that place for fifty years. He organized the town in 1857, got the postoffice then, and has held it continuously since.—Free Press.

### From a Stalwart.

It appears to be certain that La Follette will be a candidate for president in 1908. Well, the country might go farther and fare worse; there's Bryan, or Tom Watson, for instance.—Waupaca Post.

### So—?

Spoooner and La Follette are again opposed to each other on matters of legislation, but this time Spoooner will be proven to be right by the senate.—Janessville Gazette.

### Bob Will "Fix 'Em" Later.

Senator La Follette will even the score with those senators who left his speech to take a drink when he gets out on the chautauqua circuit.—Madison Democrat.

### Blow-Up Might Help There.

The mud in the Dismal Swamp is boiling and Virginians are afraid of an earthquake. The last uprising in that state had a bad ending.—Sheboygan Journal.

### What it Cost Becker.

The statement, filed by Mayor Becker, shows that his election cost him \$9,207.01. Even at that a good lot of people will agree that it was worth the price.—Milwaukee—Fond du Lac Commonwealth.

### Suffered For Ignoring Life.

Amid the clash of embattled scientists, Dr. Dowie explains the earthquake most lucidly. "San Francisco refused to receive my message" in 1888. There you are. And how about New York's seismic prospects, doctors?—Milwaukee Sentinel.

## EX-FIREMAN SAVES HOME; WIFE IS SPEECHLESS

At 8 o'clock this morning a gas-line stove exploded at the home of J. C. Johnson the express and drayman at 2106 Kane street.

Mr. Johnson was the only one in the room at the time and was about a yard from the stove when the explosion occurred. The whole room was enveloped in flames, but Mr. Johnson, who is an ex-fireman, kept his presence of mind and soon had the fire extinguished. He managed to get to the stove, the tank of which had been filled with a gallon of gasoline the day before, and throw it out the window, and then proceeded to extinguish the flames, completing his task just as the department, for which he himself had no telephone, arrived.

His wife was in an adjoining room but was so frightened upon seeing the mass of flames that she could not speak so Mr. Johnson had to manage all himself. How Mr. Johnson escaped without being burned is a miracle but he was not injured in the least.

## DOUBLE-TRACKING RIVER DIVISION

Work of double-tracking on the river division of the Milwaukee road is progressing very rapidly and new machinery for use at the scene of work is arriving almost every day. The new steam plows arrived at the north side today. This morning between 6 and 6:30 seven extras were sent out.

## MRS. HENRY GOHRES IS LAID TO REST

The funeral of Mrs. Henry Gohres of Wall street was held this morning from the St. John's church at the corner of Avon and St. James streets, Rev. Father Kaluza officiating and Wm. Dwyer in charge.

A large number of friends attended the services and a large concourse followed the remains to their final resting place in the Catholic cemetery.

## REV. HOVERSTAD IS COMING

Rev. T. T. Hoverstad will be here Wednesday evening to assist in the meetings that are being held this week in the Lutheran Trinity church on Avon street. Mrs. Hougland conducted the services there yesterday forenoon and evening and will continue Monday, Tuesday and Wednesday evenings this week.

## WM. TORRANCE, JR. GETS SCHOLARSHIP

William Torrance, Jr., son of Mayor William Torrance, has just received the honor of having won a scholarship at Oread Institute, Maryland, a college renowned for the high standard of efficiency of its graduates on account of the strict requirements necessary for admittance.

Two scholarships are accorded each state each year. The two graduates of high schools with first honors who have the highest general averages are picked for this honor. Will Torrance took first honors in the graduating class of the local high school last June, and his general average was the highest of any graduate in the state, according to the information contained in the letter awarding him the scholarship. The other winner is unknown here.

Young Mr. Torrance is 19 years of age and has ambitions to become a scientific farmer. He will take up agriculture at Oread. He left Saturday night for the school.

## EULER - LORENZ

Miss Ida Lorenz, formerly saleslady at L. D. Peet's dry goods store, and Mr. W. B. Euler of the John Gund Brewing company office force, were married at 8 o'clock Monday evening at the parsonage by Rev. J. E. Gamm. Both parties are well known in society circles. They will reside at 1403 South Sixth street, where they have gone to housekeeping.

## Good Tobacco Not Injurious

There is no reason why tobacco should injure any one. It is not a question of expense to the smoker, or of how much you smoke, but simply a matter of using the proper kind of tobacco.

Red Feather Tobacco, which costs you but 5 cents per package, and which may be obtained everywhere, is such a tobacco. It is made by a different process than others employ. In most brands, the most expensive, as well as the cheapest, the flavor is produced by doctoring the leaf. Drugs are used, not only to hide inferior stock, but to imitate the flavor and aroma of perfectly blended tobacco. Such drugs injure the health and affect the heart and digestive system.

No such methods of manufacture are used in Red Feather tobacco. Its rich flavor and perfect aroma are the result of skillful, expensive blending of the finest natural, properly cured leaf. Every leaf is selected and mixed with an absolute knowledge of what the resulting flavor will be. There is no need of drugs when such care is used, but other makers think it a method too expensive.

Red Feather Tobacco is delightful in flavor and pure, sweet and wholesome. You can smoke as much as you want without hurt. Your dealer sells it. Take no other.

would make them enticing values even if our prices were as high as those demanded elsewhere for the same identical grades. But it is this rare and well known modesty in the pricing of our garments that has earned us the title of "the most satisfactory buying place in the city"—therefore it seems unnecessary to state that we do not propose to abandon the very policy that is responsible for our enviable reputation. As a further demonstration of this fact we call attention to our new model single and double breasted suits in beautiful dove grays and other appropriate shades, with long, vented coats, which we are selling for—

**Around  
The Town**

The Latest Musical Satire  
of N. Y. Life.

**AT THE THEATRES**

Murray and Mack are today the oldest team of farce comedy stars now before the public though probably the youngest in years. They have been starring continuously for fourteen years. When they started Murray was nineteen years of age and Mack twenty. Their first production was a skit entitled "The Irish Neighbors." From the beginning of their career they have been successful in their particular line. They have made many big productions, but this year they fairly outdo themselves. The production of their latest comedy, "Around the Town," which is said to contain more novelties than any farce comedy of a similar nature. At La Crosse theatre to-night, May 1st.

There is no theatrical event of the year more heartily welcomed by German theatre-goers, than the engagement of the "Milwaukee German Theatre company" under the direction of Mr. Ludwig C. Kreiss from the Pabst theatre. As an organization it scarcely needs any word of commendation here. The company met with good success wherever they appeared and should not fail to be adequate to the demands of our public. Manager Kreiss claims that his artists are even superior to those of

former years. The company includes Anna Richard, Anna Roithmeyr, Mathilde Dierks, Gertrude Mueller, Emil Mary, Herm Meltzer, Curt Stark, Berth Sprotte, Sieg Elfeld, Carl Koenig and Ludwig C. Kreiss. The German Theatre company of Milwaukee will appear May 6th at Germania hall.

The new bill at the Bijou this week is very good and pleased packed houses at each performance yesterday. The views from the stricken city of San Francisco shown for the first time yesterday show a vivid picture of that terrible disaster and are the very first to be shown in this part of the country. Rose Dobie, the child violinist, is a very clever little artist in her line and is a wonderful player, handling her instrument in a manner that would do credit to one many years her senior. Clark and Temple have a good sketch and introduce some good singing. Green and Green, comedy jugglers, are clever and introduce some good comedy in a very clever act. Mr. Jack O'Toole who made his initial bow to the patrons of the Bijou bids fair to be a favorite. He handles the songs in a very pleasing manner. Frank Milton and the De Long Sisters present a comedy musical act that abounds with mirth and music. Mr. De Long's character work is very clever and the ladies are beautiful. The new moving picture, The Black Hand, taken from actual scenes of police duty in New York, is new and very interesting. The show is one of the best of the season.

to the officer.

"No you don't, mister man; I wasn't born yesterday. Get around in front here and march straight ahead and don't you make a misstep or something will happen," indicating with the gun what he desired.

The rest was easy. After reaching the team the undersheriff searched his man and found as he expected that he had in a pocket retained a firm hold on a handkerchief wrapped around a big rock, constituting a sling-shot of a most dangerous nature and one which the prisoner was no doubt looking for an opportunity of using when he attempted to get close to the officer in the swamp.

Conners got back to his cell in the county jail in time for supper. The undersheriff's activity kept him from missing a meal in Sheriff Haugen's boarding house.

**FORMER BADGER IS  
CANDIDATE FOR  
CONGRESS**

Judge B. W. Campbell of Aberdeen, a former practicing attorney of Viroqua, is a candidate for one of the South Dakota seats in congress. A Groton newspaper comments on his career as follows:

"We can say without any equivocation that no man who has ever had anything to do with the political affairs of Grant county stands in higher esteem of the general public than does Judge Campbell. During his 12 years service as presiding judge of the circuit court he secured the confidence and respect of the people, not only by his ability in getting to the bottom of the legal questions brought before him, but by the absolute fairness and impartiality of his decisions. As a representative in congress from South Dakota, the people of the state would have no reason to feel ashamed of Judge Campbell either as to his ability or his integrity, and it is a foregone conclusion that the interests of the state would be carefully and faithfully looked after."

**EARL NELSON FRAC-  
TURES HIS LEG**

Earl Nelson, the seven-year-old son of Mrs. Caroline Nelson, a widow residing at 1709 Prospect street, sustained a severe fracture of the leg Saturday.

He was out with a number of other boys riding on a rubbish wagon when he slipped and fell over the side, his limb being twisted in the revolving wheel until the bone snapped.

Owing to his tender age extreme difficulty is being experienced in keeping him quiet in bed and this makes the fracture a serious one.

**WHOLE TRAINLOAD  
OF BANANAS**

A train containing twenty cars of bananas from New York passed through La Crosse Saturday bound for Minneapolis and St. Paul. The trip from New York to La Crosse was made in 44 hours. Three hours and fifteen minutes were required to make the trip from Milwaukee to Portage and from Portage to La Crosse three hours and thirty minutes. Railroad gossips have it that there will be two trains of this kind over this division every week. It has been the custom to run them over the Dubuque division. The men in charge of the bananas open the cars at each terminal to give the fruit an airing.

**STUDENTS IN RAGE OVER  
DISPOSAL OF MR. PRAY**

Anent the action of the state board of normal regents during the meeting here Saturday in requesting the resignation of President Pray of the Stevens Point normal school a Stevens Point dispatch says:

"Mingled regret, indignation and excitement are displayed by students of the Stevens Point normal school over the action of the state board of regents regarding the forced resignation of President T. B. Pray of the school.

"There was a demonstration this morning when Mr. Pray took his chair on the rostrum. The students applauded the retiring president heartily and he made a short address in which he thanked them for their faithfulness to him.

"Regret over Mr. Pray's retirement has made a complete change in plans for the coming weeks of the school term. Many events of a social nature have been given up definitely, literary clubs have abandoned their plans and the senior class has even put an end to plans for the class play, which is an annual event. The men's literary societies have given up the inter-society debate."

**ONYX IN THE  
KICKAPOO**

Interest in Kickapoo mining was awakened when a fine quality of onyx was found on the farm of Wm. Nelson, east of Reedstown, says the Reedstown Herald. Experts declare it to be the finest yet sent in for a test from this section. Nearly every cave east of the river contains deposits of onyx and prospecting for it goes on rather quietly, but in the near future active operations will no doubt be opened. The Kickapoo hills are surely good for something and this something will scarcely be realized until a company with push and capital gets busy.

**THE PROFESSOR SAID**

**About Coffee**

(A certain Professor in a Chicago University in a recent talk to students)

"We talk of drunkenness as a crime," continued, "but tea and coffee drinking at meals is more injurious than liquor to some men." Tea and coffee drinking, Prof. — told his class, "is responsible for much of the restlessness of the American nation."

**THINK THEY WILL QUIT?**

Yes many of them know that with good health they can "do things" in this world, so when they find stomach trouble, weak eyes, bad blood and muddy skin, or any of the many incipient signs of disease set up by Coffee they quit.

**THEN THEY TAKE ON**

**Postum  
Food Coffee**

Because it furnishes the Coffee flavor, charming color and all the pleasure of Coffee drinking and does not destroy stomach and nerves but makes for the sure rebuilding of the entire body on healthful, sturdy lines.

**HARD TO LEARN.**

Take Hard Experience to Teach People Some Facts.

Many people jeer at the idea that coffee causes the aches and ails they suffer from and often such people will go on for years sticking steadfastly to the coffee and suffering month in and month out but maintaining "Coffee don't hurt me."

Only an actual test will open their eyes to what they throw away when they cast aside the richness and power of health for a cup of coffee now and then. A lady says:

"I did not learn the real truth until I made the change, but I can now positively state that the headaches I had for about seventeen years were caused by drinking coffee for when I changed and gave up coffee and used Postum in its place I experienced entire relief; I have not been troubled with headache since I began Postum in 1896.

"This in brief has been my experience on the coffee question. Among my friends I have seen many other wonderful instances of the power of this food drink when used in place of the drug drink coffee. Among my friends there are those who tell me of relief from kidney trouble, neuralgia and eczema by leaving off coffee and

using Postum and I have even known it to relieve rheumatic pains in limbs.

"I really believe these statements for since I cut out coffee and used Postum I never seem to have an ache or pain and I would not dare go back to the old coffee again. Not only myself but my family use Postum exclusively and we know there is no hot beverage that can take its place. Nearly seven years steady use of Postum convinces me I know what I am talking about when I say it is food as well as drink and most valuable to build up the system." Name given by Postum Co., Battle Creek, Mich.

# MALARIA AN INSIDIOUS FOE TO HEALTH

Malaria is an atmospheric poison which we unconsciously breathe into our lungs through the impure air arising from low, marshy places, stagnant ponds, damp cellars, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality is weak, the appetite poor, digestion deranged, the complexion grows sallow and the entire body feels the effects of the poison. Malaria must be removed from the system through the circulation and the only medicine that can accomplish this is S. S. S. It not only cleanses the blood of all unhealthy, morbid matter, but destroys the germs, cures Malaria and restores this vital fluid to a strong, healthy condition. S. S. S. is made of roots, herbs and barks combining purifying and tonic properties which keep the blood free of all poisons and the system in perfect condition. While destroying the germs of Malaria and building up the weak, polluted blood S. S. S. gives tone and vigor to the entire system. Book on the blood and any medical advice without charge.

# LIBERAL CABINET GIVES TO PARLIMENT AN IDEA OF REVENUE AND EXPENSE

London, May 1.—"Budget Day," as usual, attracted an unusual attendance in the house of commons, and the house was full when the chancellor of the exchequer rose to introduce the first budget of the new Liberal administration. Asquith began by reviewing the past financial year, pointing out the cheering fact that the revenue was larger and that the expenditure was smaller than the estimates, hence the country was in the happy position of having realized a surplus of \$17,333,000. The steadily growing prosperity of the country in 1905 had continued during the first quarter of 1906.

## Figures on Another Surplus.

Asquith called attention to the progressive diminution of the yield of the duties on alcoholic liquors. The change, he added, had apparently affected all classes of society, and would be hailed with pleasure by social reformers. But he doubted whether it was safe to base thereon any wide generalization as to a vast change in social habits. Asquith estimated the expenditure for 1906-07 at \$708,330,000 and the revenue at \$724,300,000. There would be therefore an estimated surplus of \$15,970,000.

## Loss Expense; Equal Efficiency.

The chancellor then surveyed the general financial position, referring especially to the growth of the national indebtedness, now a huge total of \$3,944,500,000, and to the expenditure, dwelling on the gigantic, excessive, sums devoted to the navy and army. He said he hoped and believed from what he knew of the intentions of his colleagues that when he introduced the budget for 1907 he would be able, without any material weakening of the efficiency of the national services, to effect a substantial saving.

## LIFE OF MARTIN LUTHER A BIG FEATURE

"The Story of the German Reformation or Life of Martin Luther," is the title of the entertainment to be given under the auspices of Lutheran League of the English Lutheran church at the La Crosse theatre, May 10th and 11th.

The entertainment is of an entirely historical religious character, giving a thrilling representation of a time in the history of the church, when it meant something to be a Protestant.

It was originated by Mrs. H. E. Monroe, of Washington, D. C., who spent three years in Germany preparing it. She has visited the greatest libraries and art galleries in the world and has made them contribute to the beauty and perfection of this production. The costumes are elaborate and rich and of 16th century style. In selecting these Mrs. Monroe was aided by Pastor Frommel at that time pastor at the German court, now deceased. Mrs. Della E. Mayers, of Washington, D. C., sister of Mrs. Monroe will deliver the lecture which will be illustrated by 85 superb stereopticon views. Most of these views were made from photographs taken right on the spot under Mrs. Monroe's direction and then taken over to Levy of Paris who is one of the world's best artists along this line and made up by him into the stereopticon slides. More than 100 persons invited from the various churches of the city are taking part and will represent by song, dialogue, processions, tableaux stirring dramatic scenes, leading events in Germany during the 16th century.

The entertainment opens with an allegorical church procession in which the different figures of the church are formed and the large body of participants sing while marching forming a grand chorus. At the close of the procession Ecclesia or the church comes into the figure with uplifted cross and the flags of the nations represented salute the cross.

The second scene is from the Monastery at Erfurt. In this will be a fine male chorus.

The third scene is Luther's trial at the Diet at Worms. This is a very strong scene. The words used at the original trial are used here. Emperor Charles V. of Germany will be represented by Prof. F. H. Fowler, Cardinal Cajetan of Rome by Mr. "Punch" Robertson, Elector Frederick III. of Saxony by Rev. John Kronmeyer, Dr. Martin Luther by Rev. J. E. Lowe.

The nun and novice scene is a most beautiful and pathetic scene touching some of the finest chords of the human heart. It represents an abbess bidding farewell to the nuns and novices and their going forth from their convent home at the order of Elector Frederick III. of Saxony. There is an interesting dialogue and choice song and choruses.

The fifth scene is an allegorical procession and close the entertainment. All participants take part and with flying flags of the nations they sing Luther's great battle hymn "Ein Feste Burg is unser Gott," than which no grander music could be found to open the World's Fair in Chicago in 1893.

## DANA'S NINTH CON- CERT THURSDAY

The ninth concert in the series of ten given by Dana's Third Regiment band will occur at the theatre on Thursday evening of this week, May 3rd. The program is an unusually pleasing one, including such strong numbers as the overture to Suppe's "Beautiful Galatea," selections from the fine old opera, "Faust," and the favorite fantasy, "The Dying Poet," by Gottschalk. The lighter numbers are a musical burlesque, "Anheuser Push," the dainty "Titania," an air de ballet and the program concludes with a grand description fantasia, "A Summer Evening in the Alps," with storm scene and other electric effects. Mr. J. R. Kerr, the popular baritone, will be the vocalist. Over 600 people attended the last concert and they are growing in popularity with each entertainment.

## PEERLESS TEAM IN HARD GAME WITH GALESVILLE

The Gund's Peerless base ball team promises to establish a reputation as the name itself implies. The team was up at Galesville Sunday, where they played their first regular game of the season. It is well known that the Galesville team is a very strong organization as they last year defeated the La Crosse league team. The Peerless, although they lost the game, put up an elegant showing. The game ended with a score of 2 to 0 in favor of Galesville.

The pitchers were at their best, Appel for Galesville giving one man base on balls and allowing two hits, while on the other hand Voight for the Peerless gave two men bases on balls, and allowing but one hit. The game was replete with strike-outs and the youngster Voight more than held his own with the vernal Appel, the latter getting 14 strike-outs while Voight got 12. Davis, the Peerless catcher backing him up is fine style. After the first inning during which the two runs were scored by Galesville they didn't get to see as much as first base until the seventh inning. Only one error was credited to the Peerless team and Galesville to their chagrin was robbed of a number of seeming hits in that Larsen, shortstop, Barney 3rd base and Stuve second base, Gilles rightfield, made sensational catches. Carroll the first baseman played his position with a skip. The Peerless infield was a stone wall.

In and out of the game the Galesville boys showed the visiting team the greatest degree of courtesy possible, and were gentlemen in every respect, playing a good clean game of ball.

Arrangements are also being made to bring some strong team here for Sunday, May 13th as the Peerless have the league grounds for that date. Next Sunday the boys will go to Lansing, where they will bump up against the famous Iowa pitcher, Hastings.
